

Honors/Advanced Placement Level Change Request

Based upon the performance of my student, _____, I am requesting a level change to become effective as soon as approved by the Administrative office of WCA.

I understand that payment of \$125.00 for replacement books and supplies must be received prior to your approval and that whatever grades earned to the approval date will be transferred to the new class's grade books for the year's grade calculations and course credits. I believe this decision is in the best interest of my student.
